B Sangavi

Full Stack Web Developer

PROFESSIONAL SUMMARY

Dynamic Full Stack Web Developer with solid knowledge in the MERN stack. Demonstrates strong technical skills in building solo projects. Excellent problem-solving abilities and effective communication skills. Eager to apply technical expertise and soft skills in a professional environment to drive innovation and efficiency.

WORK EXPERIENCE

AthenaHealth
Issue Resolution Analyst
December 2021 – December 2022
Job responsibilities:

- Managed payment processing, monitored case progress, and maintained accurate customer records, ensuring timely and effective service delivery.
- Conducted follow-up calls and tracked case updates in line with SLAs, adhering to established quality standards and performance metrics.

PROJECTS

1. Allegro | 🌐 | 🐙
JavaScript | React | Node.js | Express.js | MongoDB | RESTful APIs | HTML5 | CSS3

- Developed a full-fledged e-commerce platform using the MERN stack, featuring user authentication and secure login.
- Enabled comprehensive product browsing, cart functionality, and seamless order placement for a complete end-to-end shopping experience.

2. Lululemon | 🌐 | 🐙
JavaScript | React | Git | RESTful APIs | HTML5 | CSS3 | Responsive Web Design | Redux

- Developed a responsive Lululemon website clone using React and Chakra UI for styling, with a JSON Server API for backend data management.
- Implemented restricted product visibility for logged-in users and added price filtering options (high to low and low to high).
