Dynamic Full Stack Web Developer with solid knowledge in the MERN stack. Demonstrates strong technical skills in building solo projects. Excellent problem-solving abilities and effective communication skills. Eager to apply technical expertise and soft skills in a professional environment to drive innovation and efficiency.

## WORK EXPERIENCE

**AthenaHealth**
Analyst
December 2021 – December 2022

**Job responsibilities:**

- Managed payment processing, monitored case progress, and maintained accurate customer records in line with service level agreements (SLAs).
- Conducted follow-up calls and tracked case updates, ensuring timely and effective service delivery.

## PROJECTS

**1. Allegro** | ⊕ | ⊙
**JavaScript | React | Node.js | Express.js | MongoDB | RESTful APIs | HTML5 | CSS3**

- Developed a full-fledged e-commerce platform using the MERN stack, integrating user authentication and secure login functionalities.
- Enabled comprehensive product browsing, cart functionality, and seamless order placement for a complete end-to-end shopping experience.
- Designed a dynamic navbar with real-time cart updates and implemented debounce for optimized search functionality.

**2. Lululemon** | ⊕ | ⊙
**JavaScript | React | Git | RESTful APIs | HTML5 | CSS3 | Redux**

- Created a Lululemon website clone using React and Chakra UI and modern styling for an authentic user experience.
- Integrated a JSON Server API for backend data management, facilitating seamless CRUD operations and data handling.
- Implemented user authentication features to restrict product visibility to logged-in users and enhance security.
